ProQuant ANALYTICS

ONE-PAGE SUMMARY
Demo Client · period to 2026-09-30

Demonstration. Synthetic company, banks, customers and transactions.

Can we rely on these numbers?

Not yet.

98% of the records agree, but 2 extract(s) came up short and 1 of 4 bank accounts cannot be signed. The fixes are known and most are small.

3 of 4	151	97/100
bank accounts close to the cent	items need action (USD 407k)	data-quality score

Decisions needed

	DECISION	WHO	BY WHEN
1	Hold the signature on BA-EUR-01 until the bank sends the missing lines	Treasury	This week
2	Ask the system owners to resend the short extracts	Data owners	This week
3	Fix the new system's interface: dates, references and mandatory fields	Finance controller and IT	Before the next close
4	Reverse the double postings and add a duplicate check to the interface	Finance	Before the next close

The full story is in the report; the items are in the break tracker; each account is proved in the reconciliation statement.
